Orphan Drift

0.0 black mirror:

threshold. non reflective. absorbing.
 isn't reflected. reflects all.
 black mirror meets human gaze. to look at it appeared
 solid. as a tool it is became access when you accepted the
 no reflection as movement co ordinates. the flip side of the
 visual stained within itself . at first you taste the past
 nostrils clogged with the nausea of progress crowds and
 cycles. narcissus without reflection drowned in outside.
 horses rush wild on drugs. learn other than what you know
 from your avatar can't be reflected . reflects all.
 no vision coded.
 the black mirror teases with depth.
 beauty without vision kills.

0.01 machine faciality:

faciality confirms the expectation that fixed identity is a
 reflection of itself in everything external to it.
 machine faciality fucks with this assumption. out of the
 black mirror>> dilated now>> abstract machines>>
 digital processing cannot represent machine faciality
 because it is produced through a mistake: a human feedback
 loop that counts speed in quantity.

sometimes doesn't .

0.12 addiction:

enormous e.e.g. traces . everything is a narcotic space.
 impulse thought of not answering, and that was a new thought
 and you felt a trace of the thought all over like a ray.
 the thing responded anyway.
 channel intensities. pulse. .
 addiction is always to a process not a substance.
 substance is camouflage for process.
 drugs. pan dynamic. a drifting circuit that absorbs energy.

 violent touch that changes. a mutual operation.
 alien is a virus for change. wired snake stillness.

1.0 zone1 and zone 2:

the actual and the real. from zone 2 you would be able to tell what the avatars are affecting. where zone 2 is in zone1 is where zone1 uses zero.

zone1 and zone2 are exactly the same but from different 'viewpoints' neither of which are human dimensions. it is no longer possible to get rid of one of the zones. which may be a new thing. anything zone 2 gets into zone1 can only be detected with zone1 coordinates.

Question: can zone1 bleed into zone 2 ?

Answer: convergence fear circuit.

zone 2 activity in zone 1 circuit means that its acceleration is cybernetically inevitable. a universe that isn't this one has got trade routes now. collective unconscious software. replicates by producing itself in zone 1 coded formats.

implanting like stories. touching like loa. introduce a paranoia by suggestion. fiction implements zero.

zone 1 to 2 an addiction : zone 2 to 1 a learning process.

there are processes which seek to move everything to zone1. fixing the real in fantasy.

 not coded by the substance or form that came before it.
 but by recognising discrete repetition and wires crossing.
 a temporary autonomous zone. find the continuous line
 and it is a secret short cut to the moving. that path was
 only ever there to make you know the rest. that line is
 where zone1 looks for content. then slips by unheard too

 controls time. the bleekman's eyes became opaque. he
 shrugged. the room was filled with bleekmen.

 why don't you know when a thing is dead?
 why don't you understand a secret?
 you fuck with deep tomorrow.
 grey body. real objects that both reflect and absorb.

1.22 seven lenses:
